

Specimen Label

PRINCIPAL FUNCTIONING AGENTS:

Methylated seed oil blend and emulsifiers 100.0%
Ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

WARNING

Avoid contact with eyes. Harmful if swallowed. Avoid skin contact. Causes eye and skin irritations. In case of contact, wash the affected areas with water immediately and continue washing for fifteen minutes. Call a doctor if irritation persists.

FIRST AID

- Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.**
- If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.
- If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- If Swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
- If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

SUNSET is a multi-component spray adjuvant developed to maximize the performance of most post-emergent herbicides. This product may be used as a replacement for non-ionic surfactants and crop oil (petroleum oils) in most post-emergence herbicide spray mixes.

Methylated seed oils have been tested by universities, and research indicates methylated seed oil improves the performance consistency of post-emergence herbicides such as imidazolinone, phenoxy, and sulfonylurea herbicides.

SUNSET may be used for aquatic or terrestrial applications such as agricultural crops, forestry, industrial, right-of-way, pasture, rangeland, turf and other sites recommending the use of an oil adjuvant.

DIRECTIONS FOR USE

Use this product at 3/4 pint to 6 quarts per acre with the herbicide of choice. Always read and follow the label of the herbicide to be used with this product. Higher rates may be required if weed populations are extreme, if waxy leaf species are targeted, or if plants are stressed at the time of treatment. Always add this product last to the spray mix and continue agitation or follow specific tank filling information on the herbicide label. Do not allow water to be introduced. Always refer to the herbicide labels for additional recommendations or precautions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Follow all governmental procedures for the disposal of pesticide spray solutions. Triple rinse container and empty rinsate into spray tank. Dispose of empty container according to approved local practices. Contact your County Agricultural Commissioner for disposal information.

WARRANTY

Red River warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Red River, and buyer assumes the risk of any such use.
